Mr. John W. Coffey
Deputy Director for Support
Central Intelligence Agency
Washington, D. C. 20505

Dear John:

I have just received your note along with the legal enclosures and certainly want to thank you for your efforts. As I indicated to you, we are seriously considering implementing the same type of agreement with our employees to help tighten up the security aspects of our operation. This will be a big help to us.

Additionally, I want to thank you and the members of your staff for the courtesies extended to me during my recent visit with you. I found your briefing to be very enlightening and educational and I certainly intend implementing some of your ideas here within DIA.

Should the occasion arise wherein you may have some time available, I would like to extend the invitation to you to join us for lunch and have you meet some of my key personnel and possibly we can even exchange a few more ideas that may prove mutually beneficial to us both.

Again, my sincere thanks for a very informative and enjoyable session.

Sincerely,

MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with Colonel Edwin P. Leonard, USAF, Deputy
Director for Support, Defense Intelligence Agency

1. On 3 August stimulated by his initiative we had Colonel Edwin P. Leonard, USAF, Deputy Director for Support, Defense Intelligence Agency 25X1 for lunch and briefing. Mr. Wattles and [] participated.

2. Colonel Leonard has been in his job for about one year having been lifted from an assignment as a commander of a heavy transport outfit to come into a completely new world - his first assignment in intelligence, in the Pentagon, in the Washington area. He responded to our briefing on our organization with a description of his directorate. The prime differences are his having responsibility for computers and for central reference, and the comparatively smaller size of his organization.

3. Colonel Leonard described a variety of problems and difficulties which he has encountered and some of his accomplishments or proposed solutions. He has devoted much attention to inter-personal communication of all levels and to space requirements. On the former he was intrigued with our 24-hour Security Duty Officer system and the range of benefits and services. On the latter he foresees as the only solution the DIA consolidation in the new Defense office building proposed for Bolling Field. Colonel Leonard expressed particular interest in secrecy agreement forms and in multi-level computer security procedures. We agreed to provide copies of our secrecy agreement forms probably as incorporated into Judge Bryan's opinion on the Marchetti case. (We forwarded a copy of that document on 8 August.)
